RANCILIO

coffeeing the World

CLASSE 6 S / S COMPACT / S TANK

Versatile and essential

The semi-automatic control of this version makes it an extremely simple machine to use and reliable in all situations.

1 COMPACT The compact model, available with 1 or 2 groups, has the same potential, but in a smaller housing unit, allowing it to be positioned even in restricted spaces.

2 GRID SYSTEM To make cleaning and maintenance easier, Rancilio has equipped all its products with a revolutionary work surface. Support grids come in a scratchproof polymer, with an efficient liquid collection system that keeps the work surface clean and protects cups against unsightly marks left by drops of coffee. The grids can be removed for washing in a dishwasher. Rancilio quality also means attention to details.
